

Date: _____ Shipper's Bill Of Lading Number: _____

Shipping Papers: **(your flying service name)** _____

From or Consigner:
this will be flying service name
Address

Shipper:
this will be flying service name
Address

Telephone number

Telephone number

Hdlg Units No. Type	HM	Kind of Package, Description	Weight
1 - Tank	X	Combustible Liquid, n.o.s., (Jet-A-Fuel), NA1993, PG III,	_____ Gallons
Emergency Response Telephone Number: 800-535-5053 Then call: <i>flying service name and number</i>			

Also you need to make your shipping paper. This is kept in the truck. You need to make some order on how you copy and file the shipping paper each time for your file. They had a great ideal on laminating the paper then entering the date and gallon with an erasable marker then upon return to headquarter copy that loader truck's shipping paper for the day and then file... repeat the process each time that truck leaves the headquarters.

Shipper Paper must have an emergency response telephone number on the shipping paper. You will need to subscribe to a service, AHTD-Highway Police used chemtrec on their example their website is www.chetrec.com , their customer service number is 1-800-262-8200. Remember the flying service is the shipper.

Another company is Infotrac.

When you contact them ask for:

Randy B. Lee
